

THE *Main* DISH

MARCH 2025-26

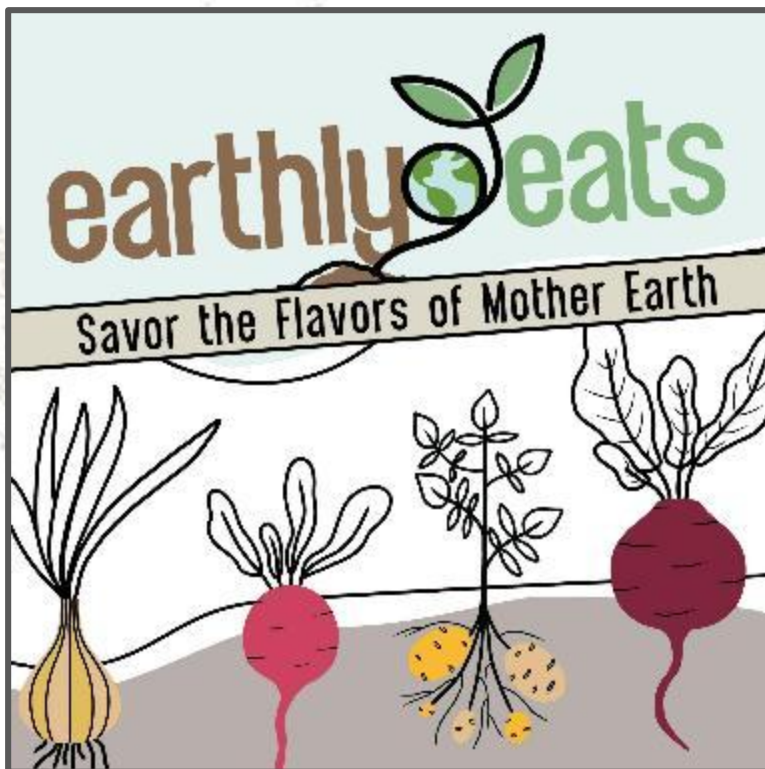

Pittston Area School District

For the month of March we had a theme of think Spring! Students at the high school and middle school were treated to new flavors of our breakfast smoothies along with a Hawaiian specialty pizza. Intermediate and Primary centers both held their annual Bunny Brunch's early this year. High School staff also had the opportunity to cater breakfast for the Act 80 day training.

A LOOK AHEAD TO APRIL

April is National Garden Month

April 22 is Earth Day, a day the world raises awareness of the need to protect the Earth's natural resources. This year, our theme is Earthly Eats. We will celebrate the occasion by featuring plant-based menu items!

Did you know?

- Beans are part of the legume family, which also includes peanuts, lentils, peas, and soybeans
- Rich in iron, folate, fiber and protein, beans are a nutrient-dense food option for any meal.
 - Black beans are native to Central and South America with a deep history of over 7,000 years as a staple in the diet
